## THE WORKINGMEN AT ISLAND MOUNTAIN.

[Times-Review.]

The following reached us yesterday, under date of Bruno, August 10, 1878, with a request to publish:

At a meeting of the working men of this precinct, without regard to party, the following resolutions were read and approved:

WHEREAS, The general complaint is heard in every department of industry, "hard times," and the people are suffering by the outrageous and grasping demands of rich, powerful and swindling corporations, in plundering and robbery them by unjust and exorbitant charges on transportation of wares and merchandise; in the sale of worthless wild-cat swindling mining shares; in giving preference to Chinese labor and thereby making beggars and paupers of our most respectable and worthy citizens; in planning, plotting and scheming in our primary precinct elections, using corrupt, detestable and unjust means to secure the nomination and election to office of men pliable and tools in the hands of overbearing thievish corporations and monopolists, a detriment and drawback to the best interests of society and the community at large; therefore

Resolved, As peaceful and law-abiding citizens, we will at all times and under all circumstances, rally round the flag of our Union; support, uphold and maintain the Constitution and laws of our land; will frown down all acts and measures not in conformity with law and good order. All political differences can and should be settled peaceably and amicably through the ballot box.

Resolved, At all precinct primary meetings it is the paramount duty of all good citizens who have the interest and welfare of the community at heart, to be present and cast their votes for reliable, substantial men for delegates to the County and State Conventions, and prevent the election of political wire-pullers, tricksters and jobbies in the interest of monopolists and corporations that would flog the county and State Treasuries of their last dollar and just support; take the last morsel of bread from the poor man's table; starve his wife and little ones; add another rivet to the galling fetters of the poor workingman who, knowing his rights dare maintain them, all to add a few dollars to the coffers of men of wealth, who have no interest in the well-being of this or any other community in this State, except, only to aggrandize his or their personal interest and ambition.

Resolved, That in the coming election, to be held in this county and State in November next, the workingmen here, without regard to party will give their united support at the ballot box for honest, capable and worthy men, whose interest and permanent residence are in this county or State; men who will use their best endeavors to promote all branches of industry, and carry out such measures and reforms as will tend to advance the interests and welfare of all classes of the community.

Resolved, That we are opposed to the granting of public aid to private corporations, in money, public lands, security for the payment of interest on railroad or other bonds; such aid is calculated to add to the coffers of the rich at the expense of the poor, and eventually centralize the government in the hands of wealthy, unscrupulous aristocrats; also, we favor the enacting of such laws as will protect the community from the unjust and outrageous demands of all corporations and monopolies of whatever name or nature.

Resolved, That a Railroad Board of Commissioners should be constituted in this State, composed of honorable, qualified business men, whose duty shall be to regulate fares and freights on all railroads in the State; to constitute and act as a Board of Referees to settle all disputes in business matters brought before them; to act justly and honorably between all parties interested thereby, doing away with unequal and expensive litigation.

Resolved, The people are opposed to the repeal of the bullion tax, a tax not oppressive to those mining companies that pay it, its repeal

would be an act of the grossest injustice; unjust and suicidal to the already overburdened tax payers; mean and contemptible and dastardly in those alien speculators and home cut-throats who work out and carry off our mineral wealth, and are unwilling to pay a reasonable and just tax.

Resolved, Having the utmost confidence in the ability and honesty of Governor L. R. Bradley, knowing him to be the workingman's friend, will use all fair and honorable means in our power, to secure his re-election to the office of Governor of this State the third term, humbug howling of office seekers, political bums and bar-room heavy dragoons, to the contrary notwithstanding.

Resolved, The action of Hon. J. P. Jones on the silver bill in the Senate of the United States, and Hon. Geo. Shepard in the Senate of Nevada for his steadfast opposition of the repeal of the bullion tax, deserves the most profound thanks, and untiring confidence of the people of Nevada; believing them to be the right men in the right place, we pledge them our united and undivided support to secure their re-election.

Resolved, That a copy of these proceedings be forwarded to the *Tuscarora Times-Review* with a request that the same be published.

WM. McLAUGHLIN, Chairman.

## THE HOME.

### FRUIT CUSTARD PIE.

Make a custard with milk, sugar, eggs and nutmeg, as you would bake a custard pie, only adding berries of any kind you like, and a little more sugar or apples or peaches sliced fine are good.

### PUMPKIN SHORTCAKE.

A Southern exchange gives the following receipt for this curious dish: "One cup of stewed, or strained pumpkin or squash, one cup 'C' oatmeal porridge and one cup of water. Beat these up together and then add three cups of fine Graham flour. Mix thoroughly, spread half an inch thick on a baking tin and bake half an hour in a good oven. Cover ten minutes and serve warm or cold."

### SWEET CORN CAKE.

Take three eggs, beat light, add one cup sour milk or cream, one cup of flour, then one cup and a half of sugar and a half cup of butter or lard; then corn meal to make a middling stiff batter, nutmeg or any kind of spice to suit taste, and one teaspoonful soda, one cup of raisins added is nice, and baking powder can be used if preferred. This cake is nice for lunch to eat with coffee or berries and cream.

### BUTTER.

Cream should be of a temperature of 55 degrees, or about, as it will not readily turn into butter this hot weather. If ice cannot be obtained perhaps lowering into a deep well might bring it to the required temperature. The butter may be prevented from coming by the cream being either too hot or too cold. With an atmospheric churn, hot or cold water can be added to the cream to obtain the right temperature.

### SPICED BLACKBERRIES.

One pound of sugar, one pint of vinegar, one teaspoonful of powdered cinnamon, one teaspoonful of all spice, one teaspoonful of cloves, one teaspoonful of nutmeg. Boil all together gently fifteen minutes, then add four quarts of blackberries, and scald (but not boil) ten minutes more. The spice can be omitted if preferred. They are excellent for children in case of Summer complaints, and where blackberries are abundant every family should have a plentiful supply.

### APPLE CUSTARD PUDDING.

Take one pint of dry bread, pulverize as fine as you can, then pour on one pint of cold sweet milk, add a very small pinch of salt, nutmeg to taste, or cinnamon or a little allspice. When the bread is softened add four eggs, then beat together a little while, then add three or four nice apples (not too sour), grated or sliced fine; then add sugar to sweeten well and one pint of sweet milk or cream and a small piece of butter. Bake in oven, in deep pan or dish. Can be eaten with sauce or without.

### CARAMEL CUSTARDS.

Put a handful of loaf sugar in a saucepan with a little water, and set it in the fire until it becomes a dark brown caramel. Then add more water (boiling) to produce a dark liquor like strong coffee; beat up the yolks of six eggs with a little milk, strain, add one pint of milk, sugar to taste, and as much caramel liquor (cold) as will give the mixture the desired color. Put the mixture in a basin marie and stir it on the fire until it thickens; pour into custard glasses and serve.

INDIA Office statistics show that at present a hundred million women in India are sunk in absolute ignorance, being unable to read a syllable of their mother tongue, and untaught as to the simplest rules of health and life, the laws of God or scientific truths; in fact, a feeling exists in most Hindu families that the girl who had learned to read and write has committed a sin, sure to bring down judgment upon her and her husband.

People who were injured by the flood in Austin are hard at work clearing away the wreck and repairing damages. The *Reveille* will issue a half-sheet next Monday.

The Potter Committee yesterday considered the case of Stanley Matthews' refusal to appear before them and decided to report him to the House as in contempt. Nothing else was done.

During the second balloting for member of Parliament at Hasburg, Hanover, the Socialists and Guelphs created a riot, which the troops were called upon to quell. One rioter was killed and several wounded.

DESTRUCTIVE CLOUD-BURSTS.

The *Enterprise* tersely relates the principal events of the past week in this State, saying:

During the week a number of overwhelming cloud bursts have occurred throughout the State, two of them resulting in great losses of property and one in loss of life. On Wednesday one deluged Thomas Canyon, in the mountains southwest of Reno and west of Huffer's. The waters swept down the canyon in mighty volume, but the loss of property was light, simply because there was little of value within reach of the angry deluge. On Thursday afternoon the flourishing towns of Austin and Eureka were devastated by similar visitations. The damage was very considerable in Eureka, the principal streets being torn up and property swept away on all sides. Great consternation prevailed, as it seemed at one time that the entire town would be destroyed. Fortunately, no lives were lost, although narrow escapes are chronicled. The flood at Austin was a still more serious affair. Main street, which is the bed of the canyon, was almost in a moment turned into a roaring and resistless cataract of waters. The street was torn up, buildings were washed down and everything touched by the flood was borne down to destruction on its turbulent bosom. One life is reported lost. Among the buildings destroyed was that in which was printed the *Reese River Reveille*, and the most of the printing material and the presses of the establishment were covered in the ruins. The wreck was so thorough that a temporary suspension of the paper will probably result. To Messrs. Booth and Hart we extend our earnest sympathies, and trust that the *Reveille* will miss but a few days' issues. Another flood visited Austin yesterday, but the damage was slight. The first had left but little to destroy.

The Boston assessors have declared the rate of taxation \$12.80 per thousand; last year the rate was \$13.10. There has been a shrinkage of \$55,000,000 on real and personal property during the year.

**SAVE YOUR HOME PAPER.**—The following clipped from an exchange expressed an idea well worthy of attention: It is well worth while to save your home paper and have it bound. A few years will make it the most instructive and entertaining volume you can possess. All the laws of association make it more or less a history of yourselves and friends. Names, dates, facts are preserved for you in the most accessible manner; over it you may cry at your mistakes and laugh at your follies and rejoice in a review of those steps that have led you to prosperity. It gives the history of your town, which is but an epitome of universal history.

**STATE UNIVERSITY.**—The Preparatory Department of the State University will be opened for the work of the first term, fifth year of its institution, September 1st, proximo. The *Elko Post* says: The dormitory has been placed in charge of competent persons and is prepared for the reception of boarders at advertised rates. Let our people bear a hand in the good work of establishing our school and in putting it in creditable condition to be investigated by a committee from the incoming Legislature.

**MR. REFUS HATCH** is a fresh illustration of the vicissitudes of Wall street. Some few months ago he failed for the paltry sum of \$2,500. After having settled with his creditors, he was readmitted to the board, and is estimated to be worth to-day a quarter of a million of dollars, almost the whole of which he made in the Granger stocks, bulling them at the lowest and bearing them at the highest figures.

**THE practice of holding over persons charged with crime, whose cases have been ignored by the Grand Jury, is becoming very common among the District Judges of this State.** The latest instance is in Lincoln county, where Judge Rives has held Robert Frazer, charged with murder, the Grand Jury having ignored a bill against him.

GRANT DON'T WANT IT.

A Boston dispatch of the 16th says:

General Grant's brother Orville, in an interview here stated that the General had written his friends that he would on no account accept a Presidential nomination, but that probably he could be educated up to it as he was once before, and if he could be convinced that he was the only man to save the country or party he would permit his name to be used, even at the risk of defeat.

THE NEVADA PRESS.

Views and Opinions on Current Topics and Events.

BAD FOR STOCK.

From all parts of the country, says the *Eureka Leader*, comes universal complaints of the scarcity of water. The running streams, which in prior seasons have never failed, have dried up, and the springs were never so low as at present. The intense and long continued heat has dried and burnt up the grass on the cattle ranges, and it looks as if this was going to be a hard year on stock. Last season the feed was fair until late in the fall, although water was scarce, but this year there promises to be a complete failure of vegetation. As the time for storms is about over, and no general rainfall can be looked for until October, at the nearest, we are afraid that our stock interests will suffer.

THREATENED DANGER.

We have heretofore shown, says the *Elko Post*, that Nevada is a loyal State, with a Republican majority large enough to elect all the officers of that political stripe. Again we call the attention of the readers to the absolute necessity of harmony, and the nomination of honest and capable men. There has never been a time in the history of the country when a Republican success was so necessary to the peace and safety of our free institutions as now. All over the East the loyal citizens are alive to the danger which is threatened by the possible success of the Bourbon Democracy. We must have the next House of Representatives, or the great work of the Republican party may be undone at the next session of Congress, business interests unsettled, prosperity retarded, and peace and our national honor insured to the unsafe and dangerous custody of our political enemies.

FOR CONTROLLER.

The *Carson Tribune*, of Saturday last, publishes the following, which it heads "Good News for the Republican Party." We received a communication this morning, signed by some of the best citizens of Pioche, Lincoln county, to the effect that Mr. James F. Hallock had consented to go before the Republican State Convention seeking the office of State Controller. Our letter states as follows: "Mr. H. will go into convention with the solid Republican vote of Lincoln county. He will make a strong fight against the third term, non-resident, Hobart. His record makes it a pleasant duty for the Republican press to endorse. He is a man of extensive acquaintance throughout the State and a pioneer Nevada Republican." Mr. Hallock is an old Storey county man and son-in-law to ex-Mayor Currie. He followed the mercantile business in Virginia City, Austin and White Pine, and has as bright a record as any man in the State of Nevada. The *Tribune* is proud, for the gentleman is an old friend, and from what our correspondent states just the one to carry our loved friend W. W. Hobart. Mr. Hallock will not only have the support of the *Tribune* in convention, but the assistance of the editor all through the eastern part of the State during the coming month.

A WARNING.

The *Enterprise* calls attention to "the danger menacing the Republican party of Nevada through combinations seeking to control its nominations," and adds: "It is the determination of the rank and file of the Republican party this year to be heard in its nominations. If this be denied them through sharp practice, such a rebuke will be administered as has never before been witnessed in Nevada."

THE STRONGEST CANDIDATE.

The *Tuscarora Times-Review* declares: We have heard a dozen prominent men, Democrats and Republicans, from the western portion of the State, express their opinion that Bradley is the only Democrat mentioned in connection with the nomination who can carry Storey county, and that he can carry it against any of the Republican candidates by a handsome majority. That he is the strongest man for that position in the State is generally conceded, even by Democrats who are opposed to his nomination. It is safe to predict, if nominated, that he will carry at least one third of the Republican vote of this county.

**FRED HART**, of the *Reveille*, is witty, even in his misery. In telegraphing his account of the calamity befalling Austin he says:

This description but poorly pictures or describes the calamity with which this town has been visited, but it cannot be made more complete, owing to the difficulty of getting around in the mud and muck of the torn-up streets. The telegraph operator has his office on a box in the street, and your reporter's desk is in the telegraph office.

**MARSHAL MACMAHON**, who is 71 years old, is the smartest man in France to-day. He gets up at 5 in the morning, builds the kitchen fire, draws the water, feeds the chickens, and has the table cloth on by the time Mrs. MacMahon gets down stairs.

Resolved: That all members of other political organizations be prohibited from participation in the primaries and that the following be the test for members of the Republican party to wit: First—Are you a citizen of the United States and State of Nevada, or will you be a lawful voter at the ensuing election? Second—Will you support the nominees of the Republican State and County Convention at the next election?

Resolved: That the Republicans of the various precincts be requested to take immediate steps for the formation of clubs to the end that every vote may be brought out at the election. It being one of the most important ever held in the county, and also from a National and State standpoint as "Eternal vigilance is the price of Liberty."
